

Fefol® Spansule®

ففول، مکمل زندگی
خانواده ففول، مکمل خانواده شماست

Product Introduction

Fefol Spansule

is an advanced pharmaceutical supplement designed to prevent and treat iron and folic acid deficiencies. This product is particularly effective in reducing fatigue caused by iron deficiency and is produced under the license of IntraPharm UK, and packaged by Ofogh Darou Company. The formulation of Fefol Spansule uses granules as carriers for iron and folic acid, which are specifically produced with slow-release technology.

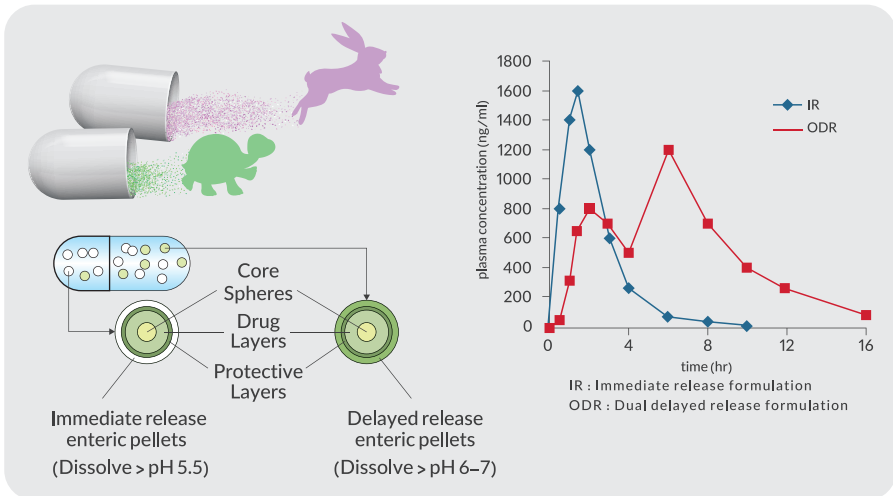

This technology allows iron to be gradually and effectively absorbed in the appropriate areas of the digestive system, while minimizing the risk of iron accumulation in any specific part of the digestive tract.

Key Features of the Product:

- Helps prevent and treat iron deficiency anemia.
- Suitable for use during menstruation.
- Suitable for athletes.
- Improves overall quality of life.
- Causes no gastrointestinal side effects
- Does not cause nausea commonly associated with conventional iron tablets
- Reduces fatigue and body weakness.
- Supports mood improvement
- Prevents irritation of the stomach and intestines.

Competitive Advantages:

- Slow-release formulation for sustained iron delivery
- Enteric Coated
- Improves absorption and reduces gastric irritation
- Contains a granular formulation for better stability and tolerance
- Reduces the number of daily doses required
- Provides Gradual and targeted release of iron
- Prevents iron accumulation in specific areas of the digestive tract
- Optimizes iron absorption at the primary absorption site
- Suitable for patients sensitive to iron
- Helps maintain stable blood iron concentration
- Prevents significant fluctuations in blood iron levels
- Reduces patient costs by improving treatment compliance and efficacy

The slow-release technology improves absorption and reduces gastrointestinal side effects

Special Ingredients and Benefits:

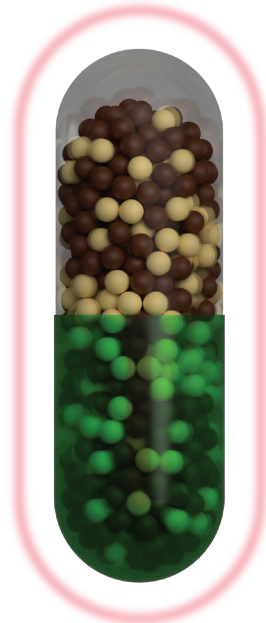

- Iron in the form of ferrous sulfate
- Folic acid
- Contains 45% elemental iron due to its special complex formulation and high-quality ingredients.
- Manufactured in accordance with international standards and Good Manufacturing Practice (GMP) principles.

Supplement Facts

Serving Size: 1 capsule
Servings Per Container: 30

Amount Per Serving	
Dried Ferrous Sulphate	150 mg
Folic Acid	500 mcg
